

# Gator "Grad"-tude

---

---

*I started teaching Spanish and French for CCSD at a local high school and received my Masters from UNLV in education. I taught for six years in the district and have taught and designed college-level classes and am currently teaching Spanish classes at UNLV. The education I received at Green Valley challenged me and allowed me to excel. I have high expectations now of any educational institution I attend and of the instructors because I experienced the best at GVHS.*
