

# Gator "Grad"-tude

---

---

*I can confidently attribute my academic success to date to the faculty, music program, and the AP/IB curriculum at Green Valley High School. I graduated with two degrees from MIT in 2006 and am now pursuing a PhD at Northwestern University. GVHS provided the opportunity not only to learn from the most engaged and committed faculty in the school district but also to participate in a repeatedly nationally-recognized music program, and to attend school with other motivated students who have also had substantial post-graduate success.*
